

The Lomond Press

VOL. 1. NO. 42.

LOMOND, ALBERTA, FRIDAY, MAY 25, 1917.

\$1.00 PER YEAR.

LOCALETS

Mrs. C. F. Doughty of the Commercial Cafe, and baby arrived here on Saturday last accompanied by Nurse Martin of Calgary.

Geo. Venner, L. M. Swain and Abe Papker spent the holiday in Calgary.

W. H. Burne has resigned his clerkship in Parker's store and left on Wednesday's train for Medicine Hat.

C. Christiansen, the local jeweler, returned on the Tuesday night train from a trip to Strathmore where he has been looking after the business of his store at that place. Mr. Christiansen intends closing up this Strathmore branch and to concentrate all his future energies in making the Lomond store the best in southern Alberta.

The Eagle sale was attended by a large crowd and netted the owner the total of nearly \$4000.

J. C. Jensen one of the prosperous farmers to the south of town has leased his farm here consisting of 480 acres to his two sons Elmer and Frank, for a term of five years. Mr. Jensen will build a new dwelling on his school land in section 37-15-20, coming a little closer to town, where he will be able to enjoy the fruits of his past prosperous farming operations. We wish the same prosperity for the boys that has attended their father since he and Mrs. Jensen cast their lot in the No. 1 wheat belt.

Base Ball Manager Baker and a couple of associates started for Lethbridge last Saturday afternoon. Somewhere along the road they started cutting circles around the moon, but fortunately received no serious injuries from their experiences. Time for repairs delayed the return for two or three days.

Mrs. J. H. Doane, who has been undergoing medical treatment at Medicine Hat has returned to her home.

E. G. Paddon has disposed of his hardware business to a Mr. Kennedy, of Calgary, who will take possession on the first of June. Mr. Varcoe, manager for Mr. Paddon, will move to Bassano to assume similar duties in the Bassano branch.

H. E. Elves, local auctioneer, made a new reputation for himself, and also gained the distinction of selling a team of mares at John Egles sale Tuesday, for the highest price received yet in this vicinity, when he knocked them down at \$720.00. This was a good price for a good team.

J. C. Larson of Wheat Centre was a business caller in Lomond Wednesday evening. Mr. Larson is sporting a brand new Chevrolet car. He also decided to become one of the many up-to-date farmers who have come to realize that the Press is a necessary part of their farm equipment.

A dance will be held in the hall at Kinnondale on the evening of June 7th. All are welcome. Also look for a big celebration on the 12th of July, sports of all sorts will be held, base ball games forenoon and afternoon. Dance in the hall at night.

Lomond, Sunday School 2:30 p. m., preaching service 7:30.

LOMOND FORCES A TENTH INNING GAME ON VULCAN

About forty motor car loads of Lomond enthusiasts followed up the base ball team yesterday for their initial game for the 1917 season, playing Vulcan on Vulcan's home diamond. The game started with dry weather and storms hovering near. Lomond to bat first and meeting bad luck right up till the pouring rain checked the game in the second innings. A couple of hours after the rain the boys went to work again and Lomond began playing up and changed the score from 6-1 to 6-6. The ninth inning closed with a score of 7-7. Lomond failed to score in batting on the tie, while Vulcan broke with a run and the game ended in their favor.

The Lomond boys rallied around their team and kept things lively all the time.

Titus, in the box, did not find himself till about the third innings, when he began to pour the red hot ones over the Vulcan bats and change the tones of the Vulcan rooters.

Wigg, pitching for Vulcan, played his usual good game, but his support appeared to back the team spirit in a more marked degree than the Lomond team, which was playing its first game for the season.

Lomond has got some good stuff for the diamond and all that is necessary is a steady team practice for an hour a day to get the boys familiar with each others tactics. Winning players have to make this sacrifice. The Lomond line-up was as follows:—

Titus—pitcher.
Gillis—catcher.
Gallegar—1st base.
Reside—2nd base.
Haight—3rd base.
Thompson—short stop.
Chapman—right field.
Pettit—left field.
Gillis—centre field. We always hate to cuss umpires, but we are certain yesterday's man gave Lomond a couple of raw ones. Perhaps he doesn't know the game, but he sure has poor eyesight and poor base ball judgement and has no right on the diamond to be in control of a game.

The Liberal convention held in Champion on Monday, the 21st., which was attended by W. H. Smith, H. E. Elves, W. B. Manning, Joseph Rodgers and A. C. Little, of Lomond, drew a crowd of more than a hundred interested met and scores of ladies. The unanimous choice of the convention to contest the riding of the liberal ticket. Mr. McNaughton gave a lengthy resume of the work of his party and was greeted with hearty applause. Arthur Mitchell, of Vulcan, president of the district liberal association presided over the meeting.

Tenders for School Building.

Sealed Tenders will be received by the Board of Trustees School District No. 3459, Amethyst, at the Office of the Secretary-Treasurer, up to noon, June 30th., 1917, for the erection of a frame school building. Plans and Specifications may be obtained from the Secretary-Treasurer on payment of a deposit of \$5.00, which will be returned on receipt of a bona fide tender with plans and specification. The lowest or any tender will not necessarily be accepted.

C. B. STORMS, Sec.-Treas.
May 25th., 1917. Amethyst, Alta.

The Weekly Half-Holiday

Every business house in Lomond has signed for the weekly half holiday. We are more than pleased to note the co-operation on the part of the business men in this behalf. Now when Etchant, Travers and Lomond are all keeping the same half day it will give splendid opportunity for all kinds of sports and the interesting base ball contest anticipated for this summer.

A great many people are averse to Sunday playing yet enjoy a good ball game as well as the next party and the half holiday will work in nicely for them.

For ourselves we propose locking up the doors, covering up well with mosquito netting and accumulate energy enough to work hard the next day.

The Travers Times

The village of Travers now has a newspaper of its own. F. L. Harris, of Calgary, having started the sheet. All commercial work connected therewith is done in Calgary. "Old man Harris," as the editor styles himself is a newspaper man of zeal and experience and sure knows how to put spice in the game.

Women who have gained the age of independence are entitled to poll a vote along with the members of the provincial election in Alberta on June 7th. W. H. Smith is all dolled up these days getting a local voter's list, and approaches the ladies in a very taking fashion.

Mr. Ferguson, travelling representative of the Canadian Freight Association, is a visitor in Lomond today, checking up some of the grievances of the C. P. R. against local business houses in the matter of car rentals. Being somewhat of a diplomat, Mr. Ferguson gets along very nicely with strangers and incidentally appears to be a paying investment for the railway company. Also, if he is the fair minded gentleman we would credit him to be, he will convey to his superior officers a good deal of information relative to freight service as enjoyed (?) by towns on this branch line. We trust Mr. Ferguson will see the debt of service the C. P. R. owes its customers on this line, but we fail to realize how he can fully conceive conditions until he himself has taken a round trip passage on the Lomond Special. It appears to us that the railway company divests legitimate profits from these branch lines to keep up appearances on main lines where revenue conditions do not even equal service. However, there'll come a day of adjustment.

John Gets a Pipe

On Monday evening a number of Armada U. F. A. friends got together and met at John Egles residence, presenting John with a handsome and serviceable pipe as a token of esteem. John is not much for speech making, but he showed his delight in an unspeakable manner. The evening was pleasantly spent in visiting over delightful soffes and sandwiches.

Mr. Egles expects to leave shortly for Spokane and intends going down the coast to the Panama Canal and coming back by way of New York. He feels he cannot forsake Alberta for good and for all.

TRAVERS

In the absence of the regular minister, Sunday, Mr. Spracklin, a student of the Toronto University gave a nice little talk which was greatly enjoyed by all. We wish him success in his undertaking.

A new way news paper called the "Travers Times" is being Edited by "Old Man Harris" in Calgary, and sent here once a week. Its easy now to get your name in the paper.

Harold Lynk had an abscess on his shoulder which was lanced by Dr. Walkey and Harold is doing nicely but will not be in school for the rest of the term.

Mr. and Mrs. G. A. Holden has left for the states for an extended visit with old home folks, namely, in Iowa and Illinois. They took Sherman Holden to Rochester to see if he can be benefited for ailments, also his blindness which would almost seem impossible after 20 years.

Those coming out in new cars this week are Harold Hunter with a Chevrolet and Jack Standord with a McLaughlin.

Mr. and Mrs. Dick Clemens took supper Monday evening with Mrs. Clark.

A large delegation expects to follow the ball team to Champion Thursday to cheer them up after their defeat, but we can tell better after the game.

Mr. O. H. Banghman's move in Mr. Holden's residence during their absence.

The seeding around Travers is mostly done some are not quite through with the oats. The wheat is all up and looks fine and healthy after the recent showers. It looks as if there will be the same acreage as last year, altho lots of breaking was done and still more this season, farmers are realizing the benefit of summer-falling and breaking.

Mrs. Windsor's funeral was held at house Sunday afternoon, Mr. Armstrong holding the service, interment was made in the Travers cemetery, she leaves a family of five children and husband to mourn her loss who have the deepest sympathy in the community. The family have lived here only two months having come from B. C.

Ladies Aid was held Wednesday afternoon with Mrs. A. Clark. The attendance is increasing each meeting as there were nearly thirty present and much work accomplished, the next meeting will be held at Mrs. J. Hooker. Mr. Mitchell will devote the afternoon to demonstrating aluminum ware and serve the lunch prepared with these utensils also each guest receives a sample of the ware.

Read The Lomond Press.

Alex Monroe of Lethbridge, visited with friends and relatives in the Lomond vicinity this week.

John Munro left for Manitoba on Saturday to clear up some business arrangements and move his family to Lomond. Mr. Phillips, who has been at the Foremost store for a couple of weeks is back in Lomond again.

Mrs. W. J. Clement is in Medicine Hat this week attending the district meeting of the Medicine Hat district of the Methodist Church, as lay delegate from this circuit. Miss Ada Farrell accompanied Mrs. Clement to the Hat.

The Lomond Press

LOMOND, ALBERTA.

Published Every Friday.
Advertising Rates on Application.

RAE L. KING, PROP.

LOMOND, ALBERTA, MAY 25, 1917

A great number of farmers in the district have taken home parcels of trees received from the Indian Head Forestry Farm. Groves of trees will, in a few years time be very common. It is an evidence of home building—something seldom bothered with by the speculator—and the assistance afforded through the courtesy of the government is amply appreciated in this emphatic prairie territory.

Now that everything is quietly settled, we wonder which is most attractive in the eyes of the ladies, the McLaughlin or the Chevrolet.

Why should we not be happy? We have all signs of a bumper crop.

Armada Pick Ups

The Press went snooping around Armada and is supposed to have picked up the following information:—

Stewart Galbraith safely returned from Calgary, making the round trip in his Studebaker car.

A certain young gentleman of Armada is developing all traits of an auto expert.

The new Armada parsonage building is making its appearance in the world.

Inspector Le Zerte has brought Armada a new teacher in the person of Miss Badgely.

Mr. Harris has moved his effects to his new home on the Egle farm and took absolute possession at the close of the sale.

The Armada picnic committee decided to cancel the picnic on the 24th. The conflict of Vulcan sports, the inability to secure booth refreshments and the withdrawal of tractor competition all influenced the committee toward their decision. At a later date a celebration will be called.

Laugh and the whole world laughs with you. Knock and you go alone.

Pay Goes On

In the event of a soldier being killed in action, dying on active service or being reported missing, assigned pay and separation allowance will be continued until the amount of pension and the day of its commencement have been determined, according to a new decision of the pension board. Hitherto the assigned pay has been discontinued on the death of a soldier and the pension has been dated back, with separation allowance deducted.

All the payments will go on now, but the pension will begin one month later after the pension commissioners have settled the claim of a wife. Assigned pay and separation allowances will cease the day the pension begins, the dependents immediately receiving the first month's pension in advance, and in the case of wives and children in addition the two months gratuity. These recommendations will be embodied in an order-in-council and will go into effect at once.

ONE OF THE NEXT FORWARD MOVES

Never in the history of the Farmer's Advocate have so many inquiries come to this office regarding water systems and sewage disposal contrivance for country homes. In this issue is published an article dealing with sewage disposal on the farm. Much of this information has been published in these columns on previous occasions, but we are pleased to meet the demand for more information on a subject which interests such a large percentage of our clientele. There is a hopeful sign in the inquiries. Conditions in the farm homes are improving. All too often the farmer has bought new machinery and implements to lighten his work, forgetting about the ceaseless toil of his wife. Too often, also, has the barn been a model of handiness while the house was anything but such. Many a man had running water in his pig pen while the only running water in the house, where his wife toiled without ceasing, was in the attic where the roof leaked and the water soaked through and spoiled the paper in the front room. The woman on the farm deserves conveniences and she is gradually getting them. Running water and sewage disposal are important in farm home comfort, and they are not costly beyond the reach of the farmer.

A New and Better Britain

When the smoke of this great conflict has been dissolved in the atmosphere we breathe there will reappear a new Britain. It will be the old country still, but it will be a new country. Its commerce will be new, its trade will be new, its industries will be new. There will be new conditions of life and toil, for the capital and for labor alike, and there will be new relations between both of them and forever. There will be new ideas, there will be a new lookout, there will be a new character in the land.

C. DOUGHTY
Lomond, Alta

The men and women of this country will be burnt into fine building material for the new Britain in the fiery kilns of the war. It will not merely be the millions of men who, please God, will come back from the battlefield to enjoy the victory which they have won by their bravery—a finer foundation I would not want for the new country, but it will not be merely that; the Britain that is to be will depend also upon what will be done now by the many more millions who remain at home. There are rare epochs in the history of the world when in a few raging years the character, the destiny of the whole race is determined for unknown ages. This is one. The winter wheat is being sown. It is better, it is surer, it is more bountiful in its harvest than when it is sown in the soft spring time. There are many storms to pass through, there are many frosts to endure, before the land brings forth its green well-doing, for in due season we shall reap if we faint not.

Red Cross Military Hospitals

By arrangements lately completed between the Military Authorities and the Red Cross Society all hospitals throughout Canada in which military patients are being cared for, may, in future, indent upon the Red Cross Society for supplies and comforts for these patients. This arrangement also applies to Military Hospitals in which returned soldiers are being specially treated, and which are under the jurisdiction of the Military Hospitals at Ottawa. In connection with the work of Military Hospitals in Canada, the Canadian Red Cross Society is anxious that these hospitals should be generously treated and has signified its intention of assisting them, to the fullest of possible extent.

Members of the sub-executive of the Alberta Provincial Red Cross have been appointed official visitors to the Military Hospitals in this Province and in connection with the Red Cross Military Hospital at Ogden the society is acting as an auxiliary to the Hospitals Commission. This hospital was originally opened by the Alberta Red Cross as a convalescent home for soldiers previous to the existence of the hospitals commission. It is now under the control of the commissions, but the Alberta Red Cross is assisting with food supplies, clothes, equipment, furnishings and personal comforts for the patients at the hospitals.

Through its official connection with hospital work in the various institutions, and what will contribute most to the comforts of the inmates. Needs are continually arising in this work, which afford an opportunity of giving both in money and in kind.

Cash donations should be sent direct to the Honorary Secretary Treasurer, Alberta Provincial branch, Rex Theatre Calgary. The Society has from time to time to meet the need of outfitting special rooms, providing special equipments and comforts and is endeavoring to do all in its power to contribute to the happiness and welfare of the men.

Supplies of country produce will be most gratefully received at our Red Cross Hospital Ogden. We cannot get too many fresh eggs, or vegetables, nor too much coal, meat, poultry, butter, cheese or home cooked delicacies which are always popular. Supplies should be sent direct by express or freight to the Red Cross Military Convalescent Hospital, Ogden. Pack-

age should contain list of contents together with the name and address of sender. A notice of such donations should be sent at the same time to the Honorary Superintendent of Supplies, Alberta Provincial Branch, Canadian Red Cross Society, Rex Theatre, Calgary.

We look to our branches and affiliated Societies to assist us in the work which we have undertaken in connection with our Red Cross Hospital. Contributions of either money or country produce are continually needed and we trust that both will be liberally forthcoming to enable us to carry on this branch of work.

CONTRACTED FOR THE ALBERTA WOOL

That Canadian wool is likely to be purchased this year in large quantities by the British government for military purposes is the substance of a communication received by an Alberta firm from a big wool-buying concern in Boston, Mass. The communication states that advices have been received from English brokers that the English government will take the wool clip of all the British colonies, including Australia, Cape Colony and Canada. Canada will have about ten million pounds this year. This Boston firm (J. Koshland & Company) have already

bought by contract this year about 640,000 pounds of wool in Alberta, the price being far in advance of last year's. The cost this year runs from 33 to 40 cents per pound, whereas last year it was on an average of 29 cents.
